2025 Alabama GOP Legislative Priorities

The Alabama Republican Party's 2025 legislative priorities build on the foundation laid by the State Legislature in recent years. Our party and conservative values have consistently championed policies that protect children, support families, and defend individual liberties. It has been Republican leaders who have taken decisive action to shield children from sexually explicit materials, eased financial burdens on struggling families by cutting the grocery tax, and empower parents of all backgrounds through School Choice and curriculum transparency. Additionally, we have stood firm in protecting constitutional freedoms by defending the 2nd Amendment, unapologetically upholding the right to free speech, and permanently banning vaccine passports in the State of Alabama.

As we move into the 2025 legislative session, we remain committed to advancing these principles and strengthening the conservative policies that preserve our state's values and way of life. To continue this progress, we will advocate for legislation that upholds the following priorities:

EXPANDING ECONOMIC OPPORTUNITIES FOR ALABAMA FAMILIES

Middle-class and low-income families in Alabama continue to face financial challenges. Republican officials have led the charge to ease these burdens by cutting the grocery tax and fostering a business-friendly environment that helps create jobs. Reducing taxes and unnecessary regulations will further strengthen Alabama's economy and enhance our citizen's financial opportunities.

Legislative priorities include:

- Eliminating Alabama's business personal property tax
- Setting free-market policy standards for cryptocurrency
- Beginning the reduction of the state income tax

PROTECTING CHILDREN & PRESERVING PARENTAL RIGHTS

Children should be shielded from radical political ideologies and inappropriate materials. The Alabama Republican Party stands firmly for Alabama families. We believe parents—not the government—should guide their children’s education and exposure to sensitive topics. Additionally, we support protecting Alabama’s teachers from being forced to comply with politically driven mandates from out-of-touch federal bureaucrats.

Legislative priorities include:

- Banning transgender indoctrination in public schools
- Ensuring girls have access to private spaces, including bathrooms and locker rooms
- Giving parents full control over opting their children in or out of sex education
- Preventing teachers from being forced to use gender pronouns

SECURING THE BORDER & KEEPING ALABAMA SAFE

The consequences of the Biden Administration’s open-border policies are being felt across the country. Drug overdoses and human trafficking are affecting our communities at a tragic level. The people of Alabama deserve protection from increased crime. While securing the border is primarily a federal responsibility, strong state-level policies can help safeguard Alabama families and ensure we do our part to keep our citizens safe.

Legislative priorities include:

- Identifying and deporting criminal illegal immigrants
- Cracking down on human trafficking
- Allocating guaranteed funding for District Attorney offices

DEFENDING INDIVIDUAL LIBERTIES

As government expands, safeguarding personal freedoms becomes more critical than ever. In recent years, we have witnessed increasing government overreach—threatening medical freedom, burdening individuals and businesses with excessive regulations, and undermining fundamental constitutional rights. The Alabama Republican Party firmly believes that individuals, not bureaucrats, are best equipped to make decisions about their own lives. Government exists to serve the people, not to control them. It's time to restore power to the people, defend their rights, and put their interests first once again.

Legislative priorities include:

- Passing "Right to Try 2.0" legislation to expand medical treatment options for patients
- Banning red-flag laws that threaten Second Amendment rights
- Prohibiting restrictions on the use of cash
- Recognizing the importance of religious liberty and defending the right to personal conviction

ENSURING ELECTION INTEGRITY

Fair and transparent elections are the foundation of our Republic. Every voter should have complete confidence that their ballot is counted accurately and that our electoral process is protected from fraud and manipulation. The Alabama Republican Party is committed to strengthening election security and protecting every legal vote. We believe in restoring trust in our elections through transparency, accountability, and common-sense reforms that uphold the election process.

Legislative priorities include:

- Establishing a hand count post-election audit
- Reforming the absentee voting process
- Implementing party registration for primary elections

STRENGTHENING FAMILIES

The family is the cornerstone of a strong, stable, and prosperous society. It is within the family unit that children should receive the love, guidance, and moral values they need to grow into responsible, capable, and principled individuals. The Alabama Republican Party believes that strengthening families must be a top priority. That means supporting policies that help mothers in need, protecting children from harmful influences, and promoting keeping families together. By defending the family, we are safeguarding the foundation of our society and ensuring a brighter future for generations to come.

Legislative priorities include:

- Raising the age of medical consent
- Passing the DHR Transparency and Integrity Act
- Granting pregnancy resource centers tax-credit status

OPPOSING RADICAL LEFTIST POLICIES

The Alabama Republican Party is committed to resisting extreme ideologies that seek to rewrite history, undermine family values, and erode fundamental rights. We will continue to protect free speech, uphold traditional principles, and ensure that government policies reflect the will of the people—not a radical minority.

Legislative priorities include:

- Defining womanhood under state law and protecting women's right to private spaces
- Preventing Alabama businesses and citizens from being "debanked" due to religious or political beliefs
- Banning taxpayer funds from being allocated to Diversity, Equity, and Inclusion (DEI) programs
- Recognizing gold and silver as legal currency
